INTRODUCTION

Ce tome de Biblia Patristica est consacré à un seul auteur : Origène. Il comble ainsi le vide laissé par le tome 2 et achève la publication des citations et allusions bibliques de la littérature patristique anténicéenne. Bien que l'œuvre de l'Alexandrin n'ait été que très partiellement transmise, elle forme tout de même un vaste ensemble dans lequel l'explication des textes bibliques occupe une place privilégiée. L'analyse de cette œuvre a permis le repérage de quelque 57 000 références bibliques, soit davantage que dans les tomes 1 et 2 réunis. Son traitement séparé s'imposait absolument.

L'analyse de l'œuvre d'Origène

Les règles appliquées pour la réalisation des premiers tomes ont également été suivies pour la préparation du présent volume. L'analyse biblique, toujours entreprise à frais nouveaux, porte exclusivement sur des textes édités. Les éditions retenues sont celles qui offrent le plus de garanties scientifiques ; lorsque plusieurs éditions d'un même texte sont d'une qualité comparable, la préférence a été donnée à la plus aisément accessible.

L'œuvre d'Origène est dispersée dans diverses collections ou études. Mais il s'en faut de beaucoup que tous les textes publiés sous son nom soient assurément authentiques ; certains d'entre eux soulèvent de légitimes questions ou ont même pu être réattribués à d'autres auteurs. C'est pourquoi, tout en prenant en compte tous les textes et fragments attribués à Origène, quels qu'en soient la langue et le mode de transmission, le Centre d'Analyse et de Documentation Patristiques (CADP) ne les a pas tous retenus. Il a écarté ceux qui sont édités à tort sous le nom de l'Alexandrin. En revanche, il a conservé les textes et fragments dont l'attribution à cet auteur est tenue pour incertaine, en les accompagnant d'un point d'interrogation. Ce tri s'est effectué sur la base d'informations et de jugements donnés par des spécialistes dans des travaux écrits et publiés. Si l'utilisateur de ce volume s'étonne en constatant que tel fragment est écarté ou assorti d'un point d'interrogation, qu'il sache donc que la raison de l'exclusion ou du doute est donnée dans un ouvrage ou article édité (voir la NOTICE BIBLIOGRAPHIQUE).

Pour les questions d'édition et d'attribution, ce volume est tributaire des études origéniennes. Or celles-ci sont de qualité inégale, notamment en ce qui concerne l'édition et l'examen critique des morceaux provenant des chaînes. Si, par exemple, les fragments caténiques sur les évangiles ont bénéficié de bonnes éditions et études, il n'en va pas de même pour les fragments caténiques sur les Proverbes ; dans ce dernier cas, les éditions sont anciennes, elles exploitent des manuscrits secondaires où les fautes, les contaminations et les erreurs d'attribution sont fréquentes, si bien que nombre de fragments offrent un texte retouché ou composite et sont d'une authenticité douteuse.

Le *point d'interrogation* (?) est donc destiné à attirer l'attention sur des cas jugés litigieux dans l'état actuel des connaissances. Il accompagne les textes ou fragments :

— qui sont transmis sans indication d'auteur et ne peuvent être attribués avec certitude à Origène,

— qui sont transmis sous plusieurs noms d'auteurs, dont celui d'Origène, mais ne peuvent être attribués avec certitude à tel d'entre eux,
— qui proviennent d'éditions réputées peu fiables parce qu'elles ont accueilli le meilleur et le pire sans que des travaux aient pu séparer le bon grain de l'ivraie,
— dont le caractère origénien a été mis en question par un savant.

Quant aux *textes et fragments non pris en compte*, leur exclusion ne s'est imposée que dans deux cas :

— lorsque le texte a pu être réattribué à un autre auteur,
— lorsqu'un savant a démontré que l'attribution à Origène était erronée.

Il arrive fréquemment qu'un même fragment soit publié par deux, voire trois éditeurs différents. Dans ce cas, le fragment n'est évidemment analysé que dans une seule édition.

Les études origéniennes progresseront. Des fragments inédits seront publiés grâce à une exploitation systématique des trésors caténiques et certains textes importants recevront enfin l'édition critique qu'ils attendent. En outre, on peut prévoir que des fragments accueillis dans ce volume apparaîtront plus tard comme suspects ou inauthentiques. De même, certains points d'interrogation seront levés quand il s'avérera possible de mieux juger si le morceau est ou non d'Origène. Le CADP n'a pas la prétention de fournir un instrument de travail définitif. Son ambition est de donner dans ce volume un fidèle reflet des connaissances actuelles et de favoriser ainsi leur progrès.

Chaque fois que cela a été possible, les textes et fragments ont été désignés sous le nom de l'œuvre d'Origène à laquelle ils appartiennent. Les *titres d'œuvres* inventés par des éditeurs modernes (par exemple, Scolies sur l'Apocalypse, Commentaire sur l'Exode ou Selecta) n'ont pas été retenus.

Il existe toutefois de nombreux fragments qui ne sont pas rattachables à une œuvre déterminée ou connue. La plupart d'entre eux proviennent des chaînes. Ils sont désignés par l'indication de leur origine et du livre biblique auquel la chaîne est consacrée ; par exemple, les *fragments provenant des chaînes* sur le Psautier sont appelés « Fragmenta e catenis in Psalmos » et ils reçoivent le sigle PS.CAT. Quant aux *fragments d'origine non caténique*, ils sont appelés « Fragmenta uaria » et reçoivent le sigle FR.

Enfin, dans les œuvres de caractère exégétique, les *lemmes bibliques* qui n'appartiennent pas au texte d'Origène ont été exclus de l'analyse.

La présentation des références

La LISTE DES ŒUVRES TRAITÉES comporte les titres en latin ; ainsi les œuvres de même type (par exemple, commentarii, homiliae, fragmenta) se trouvent-elles groupées. L'indication du sigle retenu permet au chercheur de se reporter à la LISTE DES SIGLES où il trouvera les références bibliographiques correspondantes. Une absence de sigle signifie qu'aucune référence biblique n'a été relevée dans l'œuvre et que, par conséquent, elle ne figure pas dans l'Index. Les sigles des œuvres exégétiques sont composés de l'abréviation du livre biblique, suivie de celle du genre littéraire ; ils apparaissent groupés aussi bien dans la liste qu'à l'intérieur de l'Index. On trouvera ainsi à la suite GEN.CAT, GEN.COM et GEN.HOM pour désigner les homélies, le commentaire et les fragments caténiques sur la Genèse. Les études comparatives entre les œuvres origéniennes et les extraits caténiques devraient s'en trouver largement facilitées.

Les abréviations et l'ordre des livres bibliques sont :

Les divisions en chapitres et versets sont données d'après la numérotation des éditions du texte massorétique pour l'Ancien Testament (à l'exception des livres propres à la version des Septante où nous suivons la numérotation de Rahlfs) et d'après la numérotation de l'édition de Nestle-Aland pour le Nouveau Testament.

Les *signes* utilisés dans l'Index sont :

à côté de la référence biblique

E référence évangélique qui a des parallèles dans un ou plusieurs autres évangiles. Celle qui est indiquée offre le texte le plus proche de l'énoncé patristique. Dans les cas d'indétermination, la référence a été faite systématiquement à Matthieu.

P le texte de la référence biblique n'est que le premier d'une série de parallèles dont on n'a pas cru devoir encombrer l'Index.

V le texte de la référence biblique n'a pu être fourni que par une version (non précisée). La numérotation de la référence est cependant rapportée à l'hébreu pour l'Ancien Testament et au grec pour le Nouveau.

\+ attribution biblique inexacte dans le texte patristique.

* la référence biblique est rapportée dans le texte patristique comme citée par un auteur antérieur.

à côté de la référence patristique

? texte dont l'attribution à Origène est présentée comme incertaine dans une étude publiée.

\+ placé après le chiffre de la ligne, ce signe indique que la référence biblique est reprise dans le paragraphe en question à l'intérieur de la page considérée.

\+ placé simultanément après les chiffres du paragraphe et de la ligne, ce signe indique que la référence biblique est reprise dans le ou les paragraphes suivants d'un même chapitre.

Le CADP remercie vivement tous ceux qui, par leurs conseils ou leur collaboration (envoi de textes ou de références), ont contribué à la préparation de cet Index, en particulier le Père J. Duplacy et ses collaborateurs J. Fleury, J. Pradel et G. Valayer. Il exprime également sa gratitude à Mademoiselle Françoise Petit (Bruxelles) qui a eu l'obligeance de publier, dans des délais très courts, un dossier de fragments d'Origène provenant des chaînes sur la Genèse.

Le CADP est redevable pour ses travaux informatiques de l'assistance technique du Centre de Calcul du Centre National de la Recherche Scientifique à Strasbourg-Cronenbourg, de l'accueil du Centre de Calcul de l'Institut de Mathématique de l'Université Louis Pasteur à Strasbourg et des matériels mis à sa disposition par l'Université des Sciences Humaines (Strasbourg II) dans son Service informatique de Recherche.

L'équipe du CADP, responsable de la conception et de la confection de cet Index, est composée de :

Jean Allenbach, ingénieur au CNRS,
André Benoît, professeur à l'Université de Strasbourg II,
Daniel A. Bertrand, chargé de recherche au CNRS,
Annie Hanriot-Coustet, collaboratrice technique au CNRS,
Eric Junod, attaché de recherche au CNRS,
Pierre Maraval, maître-assistant à l'Université de Strasbourg II,
André Pautler, collaborateur technique au CNRS,
Pierre Prigent, professeur à l'Université de Strasbourg II.

Le CADP souhaite que les utilisateurs de ce volume conservent l'habitude, prise après la publication des deux tomes précédents, de lui envoyer toutes espèces de compléments, critiques ou encouragements.
