INTRODUCTION

Le Centre d'Analyse et de Documentation Patristiques (CADP) aborde aujourd'hui les œuvres du 4e siècle. Progressant chronologiquement dans l'analyse de la littérature patristique, les volumes précédents de la *Biblia Patristica* couvrent la période qui va des débuts de l'ère chrétienne à la paix de l'Église. Un des traits originaux des deux premiers volumes était de grouper dans un même ensemble des auteurs et des œuvres de langues et d'aires culturelles différentes ; leur confrontation, rendue visuellement évidente dans les colonnes de ces volumes, a été un facteur de nombreuses recherches nouvelles. Les œuvres du quatrième siècle sont malheureusement trop nombreuses pour être présentées toutes ensemble selon la même méthode. Dans cet « âge d'or » de la littérature patristique, ce serait quelque deux cent mille références bibliques qu'il faudrait regrouper. Il a donc fallu procéder à des choix.

Au 4e siècle, des auteurs palestiniens

Selon quel principe devions-nous constituer des ensembles cohérents avec les œuvres du 4e siècle ? Fallait-il les regrouper en fonction des courants ou des écoles théologiques ? Fallait-il plutôt tenir compte des langues de transmission des documents (latin, grec, syriaque, etc.) ? Dans un cas les critères s'avéraient bien flous et contestables, dans l'autre on aboutissait à un découpage tel que nous nous trouvions devant la même difficulté : une masse si importante de documents et de références qu'il était matériellement impossible de les présenter en un seul et même volume. Nous avons opté pour une solution de compromis : un découpage qui privilégie le facteur géographique. On obtient ainsi des sous-ensembles qui présentent une réelle unité. La « région » offre souvent une unité de langue, une unité de vie ; elle connaît les mêmes débats d'ordre théologique, éthique, politique ou exégétique.

Cette option étant prise, il restait à fixer l'ordre des priorités. Toujours désireux de faire de *Biblia Patristica* un instrument de recherche, nous avons opté pour un des domaines les moins explorés. Peut-être parce que largement dépourvues de traductions, les œuvres d'Eusèbe de Césarée, d'Épiphane de Salamine et de Cyrille de Jérusalem sont rarement envisagées dans leur ensemble et jamais les unes par rapport aux autres. Notre désir, en réunissant ces trois auteurs palestiniens, est à nouveau de susciter la curiosité, de faire apparaître des rapprochements inattendus et de contribuer à éclaircir les contours d'un corpus qui comporte encore de grandes zones d'ombre.

Le corpus des œuvres

Depuis la publication de la *Clavis Patrum Graecorum II* par M. Geerard dans le *Corpus Christianorum* (Turnhout 1974), on pourrait considérer le problème du choix des œuvres et de leur édition de référence comme clos. La bibliographie présentée est à la fois un état de la question et une manière d'orienter le chercheur. C'est dans cette perspective que nous avons utilisé cet important ouvrage.

Nous avons donc analysé toute la liste des œuvres telle qu'elle figure dans le volume II de la *Clavis*, mais nous nous sommes parfois écartés de la nomenclature proposée. C'est le cas en particulier lorsqu'une œuvre dépourvue de texte est connue uniquement par un titre ou lorsqu'elle est citée par un auteur dans une autre de ses œuvres. Ainsi en est-il pour l'*Epistula ad Arabos* mentionnée par Epiphane dans son *Panarion*, dont le titre ne figure pas dans notre liste des œuvres traitées. C'est le cas également pour les fragments épars auxquels les savants des siècles passés ont, par commodité, affecté des titres sans lien avec une œuvre donnée d'un auteur. Ainsi l'*Antiquorum martyriorum collectio*, qui n'est qu'un recueil d'extraits de l'*Histoire ecclésiastique* d'Eusèbe, ne figure pas non plus dans notre liste des œuvres traitées. Pour la même raison nous avons préféré le terme générique de *fragmenta uaria* à toutes les collections constituées sous le titre de *Scolia in* ... Cette solution présente à nos yeux un double avantage : elle évite au chercheur extérieur à nos disciplines de prendre pour une œuvre ce qui n'est qu'une « collectio » et elle rend au chercheur averti la liberté de confrontation de ces données avec celles des œuvres reconnues.

De toute façon, pour faciliter le travail du chercheur, nous avons fait figurer dans chaque notice bibliographique le ou les numéros d'ordre qui sont affectés à l'œuvre dans la *Clavis*. Les rares cas où cette mention ne figure pas représentent des compléments de notre part ou des choix différents quant à l'édition de référence.

Rappelons pour finir qu'il est inutile de chercher dans la liste des sigles les références bibliographiques de toutes les œuvres mentionnées dans la première liste, celle des œuvres traitées ; il est clair en effet que toutes les œuvres qui ne comportent aucune allusion ou aucune citation aux Ecritures (il en existe !) ne donnent pas lieu à l'établissement de références dans notre banque de données et ne reçoivent ni sigle ni référence bibliographique.

La présentation des références

Il n'est pas inutile de rappeler que le Centre d'Analyse et de Documentation Patristiques ne se contente pas de relever les références données par les éditions ; certaines d'entre elles en effet se contentent de donner la première occurrence des citations. Bien au contraire il est procédé à une lecture à frais nouveaux permettant d'ajouter les allusions dont l'importance est capitale (surtout pour l'histoire de l'exégèse).

L'ordre des livres bibliques est le suivant :

Les divisions en chapitres et versets sont données d'après la numérotation des éditions du texte massorétique pour l'Ancien Testament (à l'exception des livres propres à la version des Septante où nous suivons la numérotation de Rahlfs) et d'après la numérotation de l'édition de Nestle-Aland pour le Nouveau Testament.

Les signes utilisés dans l'index sont :

1) à côté de la référence biblique

E référence évangélique qui a des parallèles dans un ou plusieurs autres évangiles. Celle qui est indiquée offre le texte le plus proche de l'énoncé patristique. Dans les cas d'indétermination, la référence a été faite systématiquement à Matthieu.

P le texte de la référence biblique n'est que le premier d'une série de parallèles dont on n'a pas cru devoir encombrer l'index.

V le texte de la référence biblique n'a pu être fourni que par une version (non précisée). La numérotation de la référence est cependant rapportée à l'hébreu pour l'Ancien Testament et au grec pour le Nouveau.

\+ attribution biblique inexacte dans le texte patristique.

* la référence biblique est rapportée dans le texte patristique comme citée par un auteur antérieur.

2) à côté de la référence patristique

? placé avant le titre d'œuvre : texte dont l'attribution à l'auteur est sujette à caution.

\+ placé après le chiffre de la ligne, ce signe indique que la référence biblique est reprise dans le paragraphe en question à l'intérieur de la page considérée.

\+ placé simultanément après les chiffres du paragraphe et de la ligne, ce signe indique que la référence biblique est reprise dans le ou les paragraphes suivants d'un même chapitre.

Le CADP remercie vivement tous ceux qui, par leurs conseils ou leur collaboration (envoi de textes ou de références), ont contribué à la préparation de cet index, en particulier les Pères J. Fleury, J. Pradel et G. Valayer.

Le CADP est redevable pour ses travaux informatiques de l'assistance technique du Centre de Calcul du Centre National de la Recherche Scientifique à Strasbourg-Cronenbourg et des matériels mis à sa disposition par l'Université des Sciences Humaines (Strasbourg II) dans son Service Informatique de Recherche : que tous ceux qui ont ainsi favorisé le développement de nos travaux trouvent ici l'expression de toute notre reconnaissance.

L'équipe du CADP, responsable de la conception et de la confection de cet index est composée de :
