## AVANT- PROPOS

Poursuivant son avancée dans le vaste champ de la littérature patristique du IVe siècle, la Biblia Patristica s'est attachée dans ce volume à trois auteurs de langue latine, Hilaire de Poitiers, Ambroise de Milan, l'Ambrosiaster. Le choix des deux premiers s'imposait, en raison à la fois de la chronologie, de l'ampleur de leur oeuvre, de l'importance de leur rôle dans l'histoire du christianisme de leur temps : Hilaire (mort en 367 ou 368), dont Jérôme et Augustin ont salué les qualités d'écrivain et de "confesseur" de la foi de Nicée ; Ambroise (337/339 - 397), le gouverneur devenu évêque, qui mit sa culture et son influence au service de l'Eglise - tous deux exégètes, théologiens, poètes, pasteurs. Ajoutons que tous deux, lecteurs assidus des auteurs grecs, sont de précieux témoins de la tradition exégétique issue d'Origène. Il a semblé utile de leur adjoindre l'Ambrosiaster, ce contemporain d'Ambroise toujours non identifié, mais sans doute d'origine romaine, dont les oeuvres nous ont été transmises sous les noms d'Ambroise ou d'Augustin, malgré les caractéristiques toutes différentes de son exégèse et les particularités du texte biblique qu'il utilisait. Tous trois ont consacré explicitement plusieurs ouvrages à des commentaires de l'Ancien et du Nouveau Testament : ils se sont donc révélés particulièrement riches en citations et allusions bibliques, comme en témoignent les 50 000 items de cet ouvrage.

Comme les volumes précédents de Biblia Patristica, celui-ci est le produit d'une relecture à frais nouveaux, par les membres de l'équipe du Centre d'Analyse et de Documentation Patristiques (CADP), de tous les textes des auteurs analysés. Il est juste toutefois de mettre en relief le profit que nous avons retiré, pour le présent volume, de la collaboration avec le Vetus Latina Institut de Beuron. A plusieurs reprises, la consultation sur place de ses fichiers a permis à quelques membres de l'équipe de ramener dans leurs filets de précieux compléments à nos propres analyses, et cet index a pu en bénéficier. Ce nous est un agréable devoir que d'en remercier les Professeurs H. Frede et W. Thiele, directeurs de l'Institut, et de souligner à cette occasion la fécondité de nos relations. Nos remerciements s'étendent aussi à tous ceux qui, par leurs conseils ou leur collaboration occasionnelle, ont contribué à la préparation de cet index.

Le CADP a été redevable pour ses travaux informatiques de l'assistance technique du Centre de Calcul du CNRS de Strasbourg-Cronenbourg jusqu'à la fermeture de celui-ci en décembre 1993. Il a bénéficié depuis de l'appui du Centre de Calcul appliqué aux Sciences Humaines à l'Université des Sciences Humaines de Strasbourg. Il doit en particulier l'écriture de programmes spécifiques à Monsieur Pierre Fernique.

Que tous ceux qui ont ainsi soutenu notre entreprise trouvent ici l'expression de notre reconnaissance.

L'équipe du CADP responsable de la conception et de la confection de cet index était composée de :
Jean Allenbach, ingénieur de recherche au CNRS,
André Benoît, professeur émérite à l'Université de Strasbourg II,
Daniel A. Bertrand, directeur de recherche au CNRS,
Annie Hanriot-Coustet, ingénieur d'études au CNRS,
Pierre Maraval, professeur à l'Université de Strasbourg II, directeur de l'équipe,
André Pautler, ingénieur d'études au CNRS,
Pierre Prigent, professeur à l'Université de Strasbourg II,
Françoise Vinel, chargée de recherche (détachée) au CNRS,
Thierry Ziegler, maître de conférences à l'Université de Strasbourg II.

L'équipe recevra avec reconnaissance, comme par le passé, les compléments ou corrections éventuelles que lui adresseront les utilisateurs de ce volume.

Les signes utilisés dans l'index sont :

1) *à côté de la référence biblique*

E référence évangélique qui a des parallèles dans un ou plusieurs autres évangiles. Celle qui est indiquée offre le texte le plus proche de l'énoncé patristique. Dans les cas d'indétermination, la référence a été faite systématiquement à Matthieu.
P le texte de la référence biblique n'est que le premier d'une série de parallèles dont on n'a pas cru devoir encombrer l'index.
V le texte de la référence biblique n'a pu être fourni que par une version (non précisée). La numérotation de la référence est cependant rapportée à l'hébreu pour l'Ancien Testament et au grec pour le Nouveau.
\+ attribution biblique inexacte dans le texte patristique.
* la référence biblique est rapportée dans le texte patristique comme citée par un auteur antérieur.

2) *à côté de la référence patristique*

? placé avant le titre d'oeuvre : texte dont l'attribution à l'auteur est sujette à caution.
\+ placé après le chiffre de la ligne, ce signe indique que la référence biblique est reprise dans les lignes suivantes.
\+ placé simultanément après les chiffres du paragraphe et de la ligne, ce signe indique que la référence biblique est reprise dans le ou les paragraphes suivants d'un même chapitre.
